

### Appendix 3. Laboratory data collection form

Barcode

**Sample Identification Number:** \_\_\_\_\_

| Sl. No   | Test Name                         | Results | Units                 |
|----------|-----------------------------------|---------|-----------------------|
| <b>1</b> | <b>CBC</b>                        |         |                       |
|          | A. TLC                            |         | 10 <sup>3</sup> /μl   |
|          | B. Neutrophil                     |         | %                     |
|          | C. Lymphocyte                     |         | %                     |
|          | D. Monocyte                       |         | %                     |
|          | E. Eosinophil                     |         | %                     |
|          | F. Basophil                       |         | %                     |
|          | G. Platelets                      |         | 10 <sup>3</sup> /μl   |
|          | H. Haemoglobin                    |         | g/dL                  |
| <b>3</b> | <b>Liver Function Test (LFT)</b>  |         |                       |
|          | A. SGOT                           |         | IU/L                  |
|          | B. ALT                            |         | IU/L                  |
|          | C. ALP                            |         | IU/L                  |
|          | D. Total Bilirubin                |         | mg/dL                 |
|          | E. Direct Bilirubin               |         | mg/dL                 |
|          | F. Serum Albumin                  |         | g/L                   |
| <b>4</b> | <b>Kidney Function Test (KFT)</b> |         |                       |
|          | A. Urea                           |         | mg/dL                 |
|          | B. Creatinine                     |         | mg/dL                 |
| <b>5</b> | <b>Widal Test ( if tested )</b>   |         |                       |
|          | A. S.typhi O                      |         | Titre                 |
|          | B. S. typhi H                     |         | Titre                 |
|          | C. Paratyphi A                    |         | Titre                 |
|          | D. Paratyphi B                    |         | Titre                 |
| <b>6</b> | <b>C-Reactive Protein (CRP)</b>   |         | Reactive/Non-reactive |
| <b>7</b> | <b>Urine Analysis</b>             |         |                       |
|          | A. WBC                            |         | No. of cells/HPF      |
|          | B. RBC                            |         | No. of cells/HPF      |
|          | C. Albumin                        |         | Nil/T/+/++/+++        |
|          | D. Sugar                          |         | Nil/T/+/++/+++        |
