YEAR	

	Age Group (in Years)					
Aggregated Number of Cases	0-1	2-4	5-14	15-29	30-64	65+
Number of Influenza like Illness (ILI) cases during the week						
Total OPD cases during the week						

Reported By: _____ **Signature:** _____

Mobile Number : _____ **Date:** _____

Case Definition

Any person with acute respiratory infection with;

1. Fever ≥ 38 °C; AND
2. Cough; AND
3. Onset within the last 10 days.

(Note: Consider sample collection from ILI patients only if onset of fever is within the past 72 hours/3 days)

Case Enrollment

All cases in OPD meeting ILI case definition should be enrolled as ILI cases. Each identified sentinel site for ILI should enroll at least 6-8 ILI cases every week.

Reporting Schedule

Every Week & No later than Monday of next week.
